

# Yandex Direct API wrapper

Wrapper for Yandex Direct API

[More info en \(https://tech.yandex.com/direct/\)](https://tech.yandex.com/direct/)

[More info ru \(https://tech.yandex.ru/direct/\)](https://tech.yandex.ru/direct/)

Use options

```
token: '8NsFV5UwJ5tnxA9hLcOYfFNNoFfOSQ01', // required.
locale: en, // optional; default is 'en'.
live: false, // optional; default is false.
sandbox: false, // optional; default is false.
version: 4 // optional; default is 4.
url: 'http://url.com' // optional; instead of 'live', 'sandbox', 'version' you can put this. Considering
for tests.
```

Usage example

```
var YandexDirectApi = require('yandex-direct-api');

var api = YandexDirectApi({
  token: '8NsFV5UwJ5tnxA9hLcOYfFNNoFfOSQ01',
});

// Request without params.
api.call('GetVersion', function(err, data){
  // data do something
});

// Request with params.
api.call('GetCampaignParams', {CampaignID: 06892638}, function(err, data){
  // data is CampaignInfo
});
```
